

Why Insight for managed office services?

As modern end users continue to drive the digital work revolution, businesses need to provide leading hardware and software technology so that they can recruit and retain top talent. But rallying the modern devices, applications and the means to deliver and support them is a massive IT undertaking — one that often takes away your freedom to focus on the strategic initiatives.

Insight Managed Office is a complete suite of device, cloud-based applications and lifecycle solutions designed to empower anywhere, any-time workers and drive workplace innovation. Here are some things Insight brings to the table:

- 1,400+ consulting and service delivery professionals
- Proven year-over-year cost savings
- More resources than any other OEM & service provider
- Named 2017 HP Reseller of the Year

How Insight Managed Office will help your business

Your business needs to keep up with the technology curve to stay competitive and relevant. And that means evolving both the devices you give your employees and the applications that enable them to do their best work.

By combining Insight Managed Office with HP® devices, you'll ensure your devices, data and identity stay secure. HP devices have built-in security solutions that complement the application's security features and back it up with hardware security. Let our comprehensive solution help you:

- Allow users the freedom & confidence to work anywhere.
- Stay up-to-date by leveraging automatic, hands-off upgrades.
- Budget spend accordingly with a fixed monthly subscription.
- Ensure optimal performance with 24/7 dedicated support.
- Scale, modernize and increase agility for your business.

How it works: An easy path to business freedom

Once you sign up for Insight Managed Office, you can start choosing your HP devices, have them shipped directly to you, leverage cloud applications and receive managed support every step of the way. Give your employees the tools they need to accomplish more.

Insight helps you
manage business
today and transform
the future.

Experience elite protection.

Get two layers of optimal security by combining Insight Managed Office and HP devices. From sleek laptops to compact desktops and impressive all in ones, there is a perfect elite solution for your business. You'll also gain more features and optimized performance through:

Office 365®	Instantly access email, calendar, messaging, analytics, security and compliance capabilities for a more efficient workspace.
Windows® 10 Enterprise	Enable greater flexibility with enterprise-grade Advanced Threat Protection, Advanced Security Management and more.
Enterprise Mobility + Security	Get identity-driven information protection for users, devices, apps and data to enable secure collaboration on premises and in the cloud.

Prepare your office for the future.

Get HP's most secure and innovative devices, end-to-end lifecycle services, and Insight's expertise.

We'll handle the initial setup, ongoing management and technical assistance for end-user computing — so you have more time to focus on moving business forward. Additional services include:

- Auto-provisioning so users can quickly leverage Office 365, Windows 10 and Enterprise Mobility + Security
- Secure monitoring with the state-of-the-art Remote Network Operations center and Device Management services
- Level 1, 2 & 3 service desk support that's affordable and hands-free — freeing up your IT department to focus on innovation

Work smarter.

At Insight, we'll help you solve challenges and improve performance with Intelligent Technology Solutions™.
